

The city of Mankato will flush water mains from Sunday, May 3 through Friday, May 8. Flushing hours are scheduled from 8:30 p.m. to 5 a.m. daily to ensure convenience for residents.

Water mains are routinely flushed to clean the distribution system. Avoid or limit water usage during flushing operations, because although the water is safe to drink, it may stain. It's best to allow at least an hour after daily flushing operations for the water to clear.

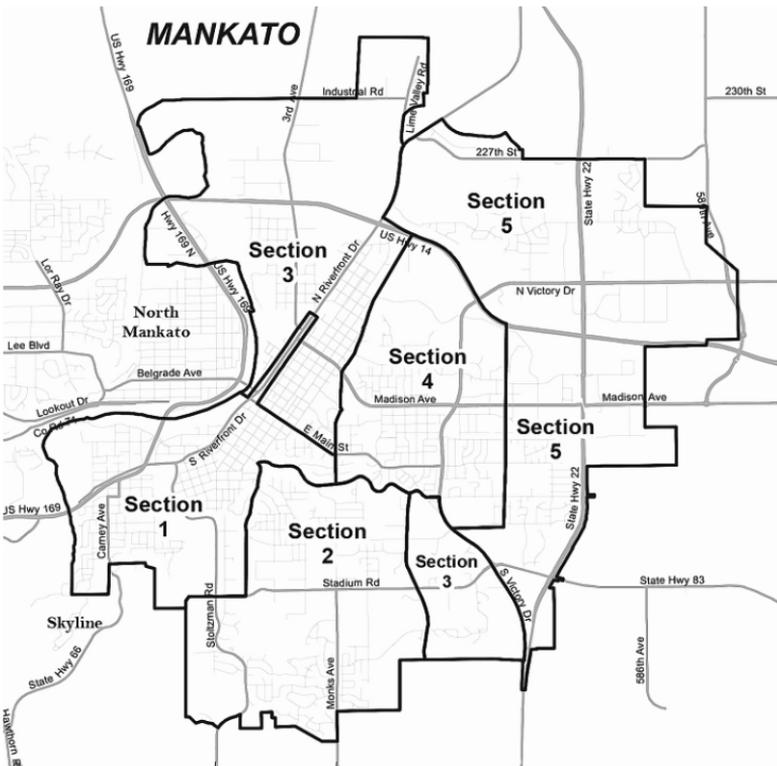

Download the 311 Mankato mobile app to see the water flushing map and report customer service items.

For more information, contact city staff at 311 or 507-387-8600.
